

51-5108

Jeweler's Forceps #5, ang 45°

- Length 4 1/4 inches
- Jaws taper to only 3 mm at 20 mm from tips
- Jaws angled 45° at 4 mm from tips

Micro fine tips of this thumb forceps are especially well suited for manipulating delicate tissues and micro sutures. The proximal grip portions and the occluding inner surfaces are flat, while the outer surfaces of the tips are smooth, convex and finely tapered.
