

24-4201

Chisel Handle

- Has a Linen Phenolic handle with steel striking head.

The Chisel Handle is designed to accommodate each of the chisel blades (Items 24-4205 through 24-4225) and is one of the components included in the Interchangeable Chisel System (item 24-4200). The Allen head blade-tightening screw is included as an integral component of the Chisel Handle.
