

24-6103

Kölbel Blade, 36 x 36mm, each

- Original 36 mm width
- Interchangeable Kölbel blades fit on any Shoulder Frame
- Featured in Standard, Deluxe, Optimal sets (24-6001, 24-8001 24-8500)
- 36 mm deep

Kölbel blades are distinguished by a rotund protuberance, ballooning a full 20mm from the central axis of their hub before beginning the return sweep to their line of origin. Excellent visualization and secure retention of the retractor in the wound are assured
